15 · दशा — Your Life Timeline

The Vimshottari system divides life into planetary periods. Each planet activates the houses it rules and sits in. This is the timing spine — it tells you not just what, but WHEN.

गुरु Jupiter (2000–2016, 16yr) — rules H8+11, sits in H2. Life centers around: your transformation, hidden life, inheritance, and encounters with death; and your income, gains, friends, networks, and desires that manifest.

शनि Saturn (2016–2035, 19yr) ◄ **YOU ARE HERE** — rules H9+10, sits in H8. Life centers around: your fortune, dharma, father, guru, and the journeys that change you; and your career, public reputation, authority, and legacy.

बुध Mercury (2035–2052, 17yr) — rules H2+5, sits in H10. Life centers around: your wealth, family, speech, and accumulated resources; and your children, intelligence, creativity, romance, and past-life merit.

केतु Ketu (2052–2059, 7yr) — sits in H3. Life centers around: detachment, spiritual insight, past-life mastery, and what you release without regret.

शुक्र Venus (2059–2079, 20yr) — rules H1+6, sits in H9. Life centers around: your body, identity, and how the world meets you; and your enemies, health struggles, debts, and competitive arena.

चन्द्र Moon (2085–2095, 10yr) — rules H3, sits in H6. Life centers around: your courage, siblings, communication, and hands-on skills.

What this document is: a deterministic computation of the classical Vedic astrological model applied to one moment and place of birth, with every combination traced to its textual source and every non-classical addition marked as such.

What it is not: a verdict. Charts describe tendencies and timings within a tradition; they do not override choice, effort, or circumstance — and this entire document depends on the accuracy of the recorded birth time (see the Birth-Time Sensitivity note, if present). It is not medical, financial, legal or psychological advice.

Our standard: if we cannot compute it honestly, we would rather not print it. Accuracy over confidence, sources over certainty.
